

STEAL THE BACON

Equipment: None required

(You could use a playground marking for this, or a cone if you have one).

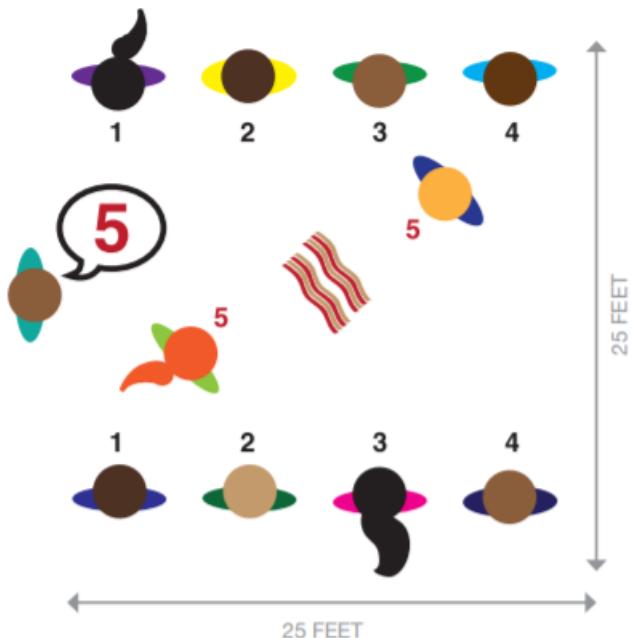

Time: 10 minutes +

Number of Players: 6+

Ages: KS1 & KS2

Where: Hall, Playground, Field

Set Up: Split children in to teams. Space each team out along a separate line in the designated area. Teams should be facing each other with the mark or item representing the bacon placed in the middle, (you could make a line with cones if appropriate as the children will not be touching the cones).

How To:

1. The leader gives each child in each team a number, which they have to remember.
2. When a child hears their number, they run towards the bacon, tap it with their foot, then run back to their line.
3. The first player to run back and sit down with their team gets one point.

Top Tip: Check that the children know their numbers before you start!

Adapt: Try to ask the children to run, hop or move in any form you decide.
